

Office Memo no: 30.35.0000. I.86.07.01.28

Date: 15/03/2023.

SATISFACTORY CERTIFICATE

Following the installation of the BCMS® VENTUR system in July 2022, the number of bird strikes at Dhaka International Airport is:

- Reduced by% - Zeroed to zero

The use of the Solution was crucial to maintaining the proper aircraft activity flow avoiding delays and inconvenience to airlines and people in transit.

Continuous and accurate monitoring has allowed for mapping of the presence, number and movements of the various species, allowing for accurate and timely intervention in removal and thus preventing, possible incidents or worst accidents. As a reminder, the BCMS® VENTUR system was developed for better managing the bird strike issue and safeguarding wildlife. BCMS® VENTUR uses deep technology that enhance effectiveness, reduces operator's workload maintaining the balance between growth and the environment.

Through the implementation of such a solution we were able to reach at least 4 of the UN sustainable development GOALS

GOAL 17

THE EDGE COMPANY AND BANGLAMARK established a solid partnership through which enhance global cooperation aimed at local area development.

GOAL 8

Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all

BCMS® VENTUR ensures the economic growth of the society to be able to continue to innovate. Designed according to the INA (Integrated Networked Architecture) approach, the system allows operators to reduce their workload and a better organization of their shifts.

GOAL 9

Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation. Ensuring operational excellence.

GOAL 15

Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss

BCMS® VENTUR monitoring is done without harmful emissions such as those of radars, therefore doesn't have a negative impact on the natural habitat.

As CAAB we are glad to contribute to the sustainable development of our area through the implementation of the BCMS® VENTUR system.

Certified that the Works under the Contract has been executed and completed in all respects in strict compliance with the provisions of the Contract including all plans, designs, drawings, specifications and all modifications thereof as per direction and satisfaction of the Project Manager/Engineer-in Charge/Other (Specify). All defects in workmanship and materials reported during construction have been duly corrected.
